

Toldya — Viral Prediction UX (Screen by Screen)

1. Splash Screen

Amaç: kategori anlatmak.

TOLDYA
The social network for predictions

Altında:

Predict the future.
Prove you were right.

CTA:

Start predicting

2. Onboarding (2 ekran)

Prediction ürünlerinde onboarding çok kısa olmalı.

Screen 1

Make predictions
about the future

Illustration:

YES / NO cards

Screen 2

Stake tokens
see crowd probability

Screen 3

Climb the leaderboard

CTA:

Enter Toldya

3. Home Screen (En kritik ekran)

Bu ekran **Twitter feed** gibi çalışmalı.

Layout:

Top bar
Trending predictions feed
Bottom nav

Top Bar

TOLDYA

Right:

profile icon

Prediction Card

Bu kart ürünün kalbi.

Will Tesla robotaxis succeed?

YES 61%

NO 39%

14k votes

Expires in 3 days

[YES] [NO]

User:

tap YES

ve bitti.

Voting Animation

Tap sonrası:

YES ✓

Probability animasyonla update olur.

YES 61% → 62%

Bu **dopamine effect** yaratır.

4. Stake Modal

Tap sonrası mini modal:

Stake tokens

Slider:

10
50
100
500

Button:

Confirm

Bu ekran **1 saniye** sürmeli.

5. Vote Confirmation

Ekranda küçük toast:

You predicted YES

Altında:

Share your prediction

Buton:

Share

6. Prediction Detail Screen

User prediction kartına tıklarsa:

Prediction title
Probability
Votes
Expiry

Example:

Will OpenAI release AGI before 2035?

YES 37%

NO 63%

Votes: 18k

Expires: Jan 2035

Altında:

[YES] [NO]

Bu kadar.

7. Create Prediction Screen

Prediction oluşturma.

Form:

Title

Category

Expiry

Example:

Title:

Will Apple release an AI search engine before 2027?

Category:

Technology

Expiry:

Dec 2027

CTA:

Create Toldya

8. Leaderboard Screen

Prediction ürünlerinde leaderboard çok önemlidir.

Layout:

Top Predictors

List:

#1 Tech0racle

Accuracy 82%

#2 FutureSeer

Accuracy 79%

#3 DataWizard

Accuracy 76%

Filter:

weekly

monthly

all time

9. Profile Screen

User profile:

username

accuracy

rank

Example:

CemPredicts

Accuracy

71%

Rank

#102

Altında:

Predictions

List:

Tesla robotaxis succeed

Predicted YES

10. Notification Screen

Prediction ürünlerinde retention için gerekli.

Notifications:

Your prediction resolved

You won

Prediction ending soon

11. Bottom Navigation

Minimum nav:

Home

Create

Leaderboard
Profile

Icons:

12. Viral Share Screen (Çok önemli)

Prediction paylaşımı.

Auto generated card:

```
-----  
Cem predicted YES  
  
Will OpenAI release AGI before 2035?  
  
YES 37%  
NO 63%  
  
toldya.app  
-----
```

Bu:

Instagram
Twitter
WhatsApp

paylaşılır.

13. Push Notification Strategy

Pushlar growth için kritik.

Examples:

Trending prediction:

Will Apple release AI search?

Your prediction is about to resolve

You climbed the leaderboard

14. Retention Loop

User loop:

```
Open app
↓
See prediction
↓
Vote
↓
Check probability change
↓
Return later
```

15. Most Important Screen

Prediction kartı.

Başarılı prediction apps şu prensibi kullanır:

one card
one action

16. UX Principles

Toldya UX şu kurallara göre olmalı.

Rule 1

2 taps max

Rule 2

no friction

Rule 3

no text heavy screens

Rule 4

probability always visible

17. Visual Style

Sana önerim:

Minimal.

Dark mode.

Colors:

YES → green

NO → red

Background:

dark navy

Cards:

white / light grey

18. Ideal Session Time

Prediction apps:

30 seconds

should be enough.

19. Viral Loop

Prediction paylaşıldığında:

```
friend opens link
↓
sees prediction
↓
votes
↓
installs app
```

20. North Star UX

Toldya'nın ideal UX'i:

Twitter feed
+
YES / NO mechanic
